

关于产品质量指标提升的告知函

Notification Letter on the Improvement of Product Quality Indicators

We adhere to the spirit of Quantity First and Customer Foremost and have always been committed to providing high-quality products and services to our customers. We are delighted to notify you that, in order to further enhance the

product quality, we have implemented a series of measures to improve our production process and quality control system.

Our primary goal is to ensure that all products meet the highest standards of quality and reliability. We are committed to continuous improvement and will strive to provide you with the best possible experience.

Product Quality Improvement Details

Our quality improvement efforts focus on several key areas: material selection, production process optimization, and final inspection. As a result of these improvements, all standardized working products will have a variation of $\pm 4\%$.

Product Working Precision

Our products are designed to meet the highest standards of precision and accuracy. We are committed to providing you with the best possible experience.

for 960, 960A and 980A.

2. Break in strength: The indicator will be improved from >0.40 N/ton to

improved to >0.30 N/ton.

3. Carbon content: The indicator accuracy will be improved from $\pm 5\%$ to $\pm 4\%$

for the range 0.0000 to 0.0005.

Chopped Strands Products

1. Carbon content: The indicator accuracy will be improved from $\pm 5\%$ to $\pm 4\%$

for the range 0.0000 to 0.0005.

For the range 0.0000 to 0.0005.

2. Moisture content: The indicator accuracy will be improved from $\leq 0.10\%$ to

$\leq 0.07\%$.

1. N

2. N

3. N

1. Area weight: The indicator variation will be improved from $\pm 5\%$ to $\pm 4\%$.

2. Moisture content: The indicator will be improved from $\leq 0.10\%$ to $\leq 0.07\%$.

3. Warp-wise breaking strength: Will be improved for 30 specifications.
4. Weft-wise breaking strength: Will be improved for 28 specifications.

We plan to gradually implement the improvement of the above product quality indicators starting from January 2024, covering our company and its subsidiaries at all levels (including India, China, Bangladesh, Pakistan, Sri Lanka, etc.).

We will make the necessary changes to the product specifications according to the improved quality indicators. If you have any questions, please feel free to call our sales department at any time. We will continue to fully support the development of the composite products industry at home and abroad with high-quality products and services.

Thank you very much for your understanding and support!
